 Sewer Rate Increase

Question 20 words which plainly phrases the chief purpose of the measure.
 Should the City increase the monthly base sewer rates \$7.00 in the City, and \$11.00 outside the City.

Summary 175 words which concisely and impartially summarizes the measure and its major effect.
 Bandon's last sewer rate increase was in 2011. Since that time, operation costs have increased with inflation, particularly as the plant and pipes age. Expenses have exceeded revenues for some time. If revenues do not increase, the City will likely have to subsidize operations from the general fund, of which 44% goes to fund police and fire protection. The City is seeking voter approval for an increase of \$7.00 per month in the base sewer rates for customers inside the City, and an \$11.00 increase in base rates for customers outside the City. This increase will go to operation and maintenance of the plant and collection system.
