**Subject:** Letter in Support of the New River Dunes Project

**This Message originated outside your organization.**

Dear Commissioners Main, Sweet, and Cribbins

It has come to my attention that the New River Dunes Project has a hearing in front of your planning commission this Thursday evening, unfortunately I will be out of town and unable to attend, but would like to go on record as being in full support of this project.

Mr. Keizer and the Bandon Dunes Golf Resort has done wonders for Coos County, the Southwest Oregon Coast, as well as the whole state of Oregon. The Bandon Dunes Golf Resort is the premier golf resort not only in the USA, but in the world. He has brought hundreds of good paying jobs to our community, and brings in thousands of guests every year to enjoy the splendor of the Southwest Oregon coast. The economic impact from his investment and vision is astonishing. I cannot think of anyone that has done more for our region in the last 20 years than Mr. Keizer and the Bandon Dunes Golf Resort.

Mr. Keiser has a strong and proven history in taking gorse covered land and turning it into world-class golf while also preserving the natural resources on and around it. He has certainly earned the right to further his vision with the New River Dunes Project.

Please forward my letter of support to the Planning Commission members.  
I would have done so myself, but their contact information is not listed on your website.

Sincerely,  
Quincy

Powers
