Wetland/Waterway/Other Water Features

- There are/may be wetlands, waterways or other water features on the property that are subject to the State Removal-Fill Law based upon a review of wetland maps, the county soil survey and other available information.

The county soil survey shows hydric (wet) soils on the property. Hydric soils indicate that there may be wetlands.

The property includes or is adjacent to designated Essential Salmonid Habitat.

Applicable Oregon Removal-Fill Permit Requirement(s)

A state permit is required for 50 cubic yards or more of fill removal or other ground alteration in wetlands, below ordinary high water of waterways, within other waters of the state, or below highest measured tide.

A state permit is required for any amount of fill, removal, and/or other ground alteration in Essential Salmonid Habitat and within adjacent off-channel rearing or high-flow refugia habitat with a permanent or seasonal surface water connection to the stream.

Closing Information

Additional Comments

Work on the river side of the dike has a 0 cubic yard threshold for permitting. On the field side, a permit is required for work within wetlands and waters that is 50 cubic yards or greater.

This is a preliminary jurisdictional determination and is advisory only.

This report is for the State Removal-Fill law only. City or County permits may be required for the proposed activity.

A Federal permit may be required by The Army Corps of Engineers: (503)808-4373
