- xiv. Predominant natural features such as water courses and their flows, marshes, rock outcropping, and areas subject to flooding, sliding or other natural hazards.
- xv. A current property report (less than 6 months old) indicating any taxes, assessment or other liens against the property, easements, restrictive covenants and rights-of-way, and ownerships of the property of the proposed development. A title report is acceptable.

➤ **SUBDIVISIONS – IN ADDITION TO REQUIREMENTS ABOVE THE FOLLOWING SHALL BE INCLUDED:**

- xvi. The proposed name of the subdivision must be on the plat.
- xvii. The proposed street pattern or layout showing the name and widths of proposed streets and alleys.

➤ **DEVELOPMENT PHASING**

a. Subdivisions shall:

- i. provide for platting in as many as three (3) phases. The preliminary plan must show each phase and be accompanied by proposed time limitations for approval of the final plat for each phase.
- ii. Time limitations for the various phases must meet the following requirements:
 1. Phase 1 final plat shall be approved within twenty-four (24) months of preliminary approval.
 2. Phase 2 final plat shall be approved within thirty-six (36) months of preliminary approval.
 3. Phase 3 final plat shall be approved within forty-eight (48) months of preliminary approval.

b. Partitions shall:

- i. Provide all phasing for partitions. If phasing is proposed then road standards for subdivisions shall apply.
- ii. If a land division is proposed on a property that has been partitioned in the prior three years then the partition shall be reviewed pursuant to subdivision criteria.

➤ **ACCESS AND EASEMENTS FOR LAND DIVISIONS**

SECTION 6.2.475 ACCESS:

Each unit of land proposed to be created shall have access by way of a County road except as provided below:

1. Local Access Road: A unit of land created by subdivision or partitioning may have access by way of an existing local access road provided:
 - a. The local access road was open to public use on January 1, 1986.
 - b. Use of the local access road is not restricted by adopted policies of the Comprehensive Plan.
 - c. The local access road is constructed to the private road standard contained in Article VII. However, if the road will, or could in the future, provide service to more than three (3) units of land in an urban unincorporated area or more than ten (10) units of land in a rural residential area, the finished top surface width shall be a minimum of 18 feet and turnouts shall not be required.
 - d. If the Approving Authority determines that the existing development pattern, topography, physical characteristics of the land, applicable land use regulations, or other circumstances affecting the area served by the local access road prevent the road from being used to provide access to more than three (3) units of land in an urban unincorporated area or more than ten (10) units of land in a rural residential area, the Approving Authority may allow the local access road to be constructed to the same standards that are required for private roads, pursuant to Article VII.
 - e. Additional right-of-way is provided along the frontage of the subject property when such is required to meet the minimum right-of-way requirements for a County road.
 - f. The applicant agrees to participate in a private maintenance program for the local access road and executes any documents required by the Approving Authority to insure such participation.
 - g. The applicant agrees to participate in any local improvement district which may be formed under ORS 371.605 to 371.660 or the Coos County Local Assessment

Ordinance to improve the local access road to County Road standards. The applicant shall execute any documents required by the Approving Authority, including a waiver of remonstrance, to insure such participation.

2. In addition to the requirements above, approval of a subdivision served by a local access road shall require:
 - a. All interior streets in the subdivision that require dedication shall be built to the County standard such that they may be incorporated into the County road maintenance system.
 - b. The subdivision shall be subject to adequate restrictive covenants or other similar device which require interior streets to be maintained by lot owners in accordance with County standards. Such restrictive covenants shall be enforceable by the County.
3. Any access approval request under this section shall be reviewed to assure that no development occurs in known natural hazard areas without appropriate safeguards. The Planning Director or designee may condition its approval of a request on the provision of such safeguards, or otherwise condition approval of such requests to insure compatibility with the objectives of this ordinance, and the Coos County Comprehensive Plan.

SECTION 6.2.500 EASEMENTS:

Easements may include but are not limited to the following:

1. Private Road Access information is found in Chapter VII (Roads or Streets).
2. Utility Easements. Easements including but not limited to sewers, water mains and electrical lines shall be at least fifteen (15) feet wide, except for utility pole tieback easements which may be reduced to six (6) feet in width.
3. Pedestrian and Bicycle Ways. When necessary for public convenience, safety or if designated on an adopted County or State recreation or transportation system plan, the County Planning Director will require a developer of a subdivision, PUD, and office park complex to dedicate to the public, public access easements ten (10) feet in width. Said easements may be deemed necessary to provide access:
 - a. through unusually long or oddly shaped lots or parcels;
 - b. to schools, parks, or other public areas;
 - c. for pedestrian travel adjacent to streets;
 - d. to water bodies or other natural amenities;
 - e. between streets or cul-de-sacs; or
 - f. between office structures and through parking facilities.
4. Slope Easements. Necessary when right-of-way slope construction extends outside of the normal right-of-way.

➤ Planned Unit Developments – All platting requirements under partitions and subdivisions apply along with the following:

SECTION 6.2.600 PLANNED UNIT DEVELOPMENTS (PUD):

The provisions of this Article shall be known as the Planned Unit Development requirements and procedures. Its purpose is to set forth the objectives, principles, standards, and procedures to be used in developing a Planned Unit Development (PUD). The Planned Unit Development Article is designed to permit the flexibility needed to encourage the appropriate development of tracts of land that are large enough to allow the use of individualized site planning. It is intended to provide flexibility in the application of certain regulations in a manner consistent with the general intent and provisions of the Comprehensive Plan for Coos County and this Ordinance,

thereby promoting a harmonious variety of uses, the economy of shared services and facilities, compatibility of surrounding areas and the creation of attractive, healthful, efficient and stable environments for living, shopping, recreation, or working.

Planned Unit Development, for purposes of this Article, is described as: an optional approach to community development which allows modification of more or less rigid setback, lot size specifications, and land use provisions of Chapter IV (Zoning) of this Ordinance, and instead establishes broad standards and goals to be followed, thus enabling and encouraging flexibility of design and development. Often based on the concept of cluster planning, it allows single-family houses and multiple-family dwellings of varying sizes, and appropriate institutional, and commercial uses to be built in the same development, thus inviting considerable variety in both tract and building design and uses, the possible retention of natural settings or community recreational areas, and reduced street and utility installation cost. Although the density of the total area remains consistent with that of conventional development, emphasis is placed on the relationship between buildings, uses, and open space, and the most efficient use of both natural and development resources, rather than planning on a lot-by-lot or building-by-building basis. All PUD proposals shall comply with ORS 94 and meet platting requirements set forth in this Article. If there are four or more dwelling units then the subdivision requirements apply.

SECTION 6.2.650 PUD USES:

The buildings and uses permitted in a Planned Unit Development shall be governed by the parent district, pertinent floating zones, and special considerations map restrictions. In addition to the uses permitted by the parent district, the following uses shall also be permitted:

1. Multiple-family dwelling
2. Two-family dwelling (Duplex)
3. Low intensity recreation
4. High intensity recreation
5. Recreational Planned Unit Developments shall contain at least 25% primary owner occupancy or long term rental dwellings (more than 30 days).
6. Retail and service establishments that provide a convenience designed to primarily serve the residents of the PUD with goods and services, and not intended to serve a larger trade or service area.
7. Accessory structures and uses to the extent necessary and normal to the uses permitted in this Section.

SECTION 6.2.675 LAND COVERAGE FOR PUD:

1. In a Planned Unit Development at least 40% of the gross land area, excluding existing and proposed parking and roads shall be devoted to open space and shall be designated as common property.
2. The overall density of a Planned Unit Development shall not exceed the density of the parent zoning district, floating zone, or special consideration restrictions.
3. The minimum lot area, width, depth, height and setback requirements of Chapter IV applicable to the zoning district in which the Planned Unit Development is proposed shall not dictate the strict guidelines for development within the Planned Unit Development and may therefore be waived. Individual buildings and accessory buildings, shall maintain the required parent district's setback from all exterior plat boundary lines, so as to provide the minimum buffering deemed necessary to protect the integrity of adjacent properties.

4. When Coos County determines that topographical or other existing barriers, or the design of the Planned Unit Development, does not provide adequate screening or privacy necessary for properties adjacent to the Planned Unit Development, Coos County shall require that:
 - a. structures located near the perimeter of a Planned Unit Development are designed and located so as to protect the privacy and amenity of adjacent existing uses; and/or
 - b. a permanent screening be established either by appropriate structure or vegetation or both, along those portions of the site boundaries requiring such screening to assure compatibility with adjacent existing or prospective land uses.

5. The location, shape, size and character of required open space shall be consistent with the standards set forth below, and shall be maintained only for those uses so specified:
 - a. Open space may be maintained for scenic, landscaping, outdoor recreational purposes, sound, solar availability or buffering;
 - b. Open spaces shall be developed and improved to the extent that it will serve the purpose for which it is designated. Outdoor areas containing natural features, existing trees, and groundcover worthy of preservation may be left unimproved; and
 - c. Open space shall be reserved for common facilities and open to the residents or occupants of the PUD.
 - d. In a Recreational PUD the Open Space Standards requires open space not be developed except for active and passive recreational activities, non-motorized vehicle or pedestrian trails, hazard control structures, and vegetative alteration such as golf courses and landscaped grounds. Clustering of intensive or build-up uses shall be encouraged to provide maximum retention of open space and to provide sufficient access to the recreational resource.

6. **Maintenance of Common Open Space and Facilities.** Whenever any lands or facilities, including streets or ways, are shown on the final development plan as being held in common, Coos County shall require that an association of owners or tenants be created into a non-profit corporation under the laws of the State of Oregon, and that such corporation shall adopt articles of incorporation and by-laws and adopt and impose a declaration of covenants and restrictions on such common areas and facilities to the satisfaction of Coos County. Said association shall be formed and continued for the purpose of maintaining such common open space and facilities. It shall be created in such a manner that owners of property shall automatically be members and shall be subject to assessment levies to maintain said areas and facilities for the purposes intended.

7. **Dedication.** Coos County may, as a condition of approval for any development, require that portions of the Planned Unit Development be set aside, improved, conveyed, or dedicated for the following uses:
 - a. easements necessary to the orderly extension of public utilities;
 - b. streets and pedestrian ways necessary to the proper development of either the Planned Unit Development and/or adjacent properties;
 - c. recreational areas or open spaces suitable for the owners, residents, employees, or patrons of the Planned Unit Development of the general public.

8. Construction Standards. Except as expressly provided by this Article, the provisions of this Ordinance and all other County Ordinances and codes shall apply to and control all design and construction of improvements within a Planned Unit Development.
9. Perimeter Standards for Recreational Planned Unit. When Coos County determines that topographical or other existing barriers, or the design of the Recreational Planned Unit Development, does not provide adequate screening or privacy necessary for properties adjacent to the R-PUD, Coos County shall require that:
 - a. Structures located near the perimeter of a R-PUD are designed and located so as to protect the privacy and amenity of adjacent existing uses; or
 - b. Permanent screening be established either by appropriate structure or vegetation or both, along those portions of the site boundaries requiring such screening to assure compatibility with adjacent existing or prospective land uses.

➤ **CRITERIA AND QUESTIONS**

Within an Urban Growth Boundary no lot area, yard, offstreet parking and loading area or other open space which is required by this Ordinance for one use shall be used as the required lot area, yard or other open space for another use, such as utility easements, access easements, road and street right-of-ways or septic drain fields.

Outside of the urban growth boundary no lot area, yard, offstreet parking and loading area or other open space which is required by this ordinance for one use shall be used as the required lot area, yard or other open space for another use. This does not include utility easements, private road access easements or septic drainfields; but does include all public road and street right-of-ways.

Panhandle lots or parcels shall be an acceptable method of land division. More than two contiguous panhandles (as opposed to the panhandle "lots" themselves) shall not be permitted. Where two panhandles are contiguous, the County may require easements and construction of an access road. Panhandles are also referred to flag lots.

Dimensional Standards. The property will comply with development standards set out in the applicable zoning districts.

1. Will all your parcels or lots meet the minimum lots sizes and dimensions. Describe how the lots and parcels will comply.

APPLICANTS REPLY:

Yes. The smallest parcel will be 2.17 Acres. RR-5 required that units of land be no smaller than 5 acres.

2. Provide proof of an adequate supply of potable water. Water supply systems, both public and private, shall conform to the requirements of state law. Adequate water supply may be accomplished with storage tanks.

All lots shall be served from an established public or private water system or private source with the water available at each lot prior to recording the plat. The water quality shall be in accordance with the requirements of the Oregon Health Division, the Oregon Water Resources Department, and the Oregon Department of Environmental Quality.

If this is not a serial partition then the Planning Director, Planning Commission or Board of Commissioners can waive this requirement. In the case of a waiver proof needs to be provided that water could be provided in the future. Acceptable information may be well logs for the area.

When the water supply is distributed through a community system the proposed method of assuring the continued maintenance of the water system shall be provided.

If a waiver is granted the following statement shall be shown on the plat: a statement that no domestic water supply facility will be provided to the purchaser of any lot or parcel depicted in the proposed land division, even though a domestic water supply source may exist. This statement must be shown on the face of the final plat.

It is the responsibility of the applicant to deliver a copy of the statement to each prospective purchaser of a lot or parcel depicted in the land division pursuant to ORS 92.090(4)(c).

If the waiver is not being applied for then an applicant shall submit and comply with one of the following options:

- i. A certification by a city-owned domestic water supply system or by the owner of a privately owned domestic water supply system that water will be available to the lot line of each and every lot or parcel depicted in the proposed land division;
- ii. Where the proposed source of water is by individual or community wells, proof of an adequate supply of potable water for all anticipated needs of the platted area shall be presented. Proof of an adequate supply of potable water may consist of:
 1. Test wells, must have at least one well per five lots or parcels, or, in the case of lots or parcels averaging less than two acres, one well per ten acres. The test wells shall produce at least 1,000 gallons per day for two consecutive days for each proposed single-family residential site; and
 2. A hydrology report documenting the availability of potable water by describing the average depth, yield and quality and by giving a general history of wells in the area.

- iii. Where the proposed source of water is by a spring, creek, stream, pond, lake or other natural or man-made surface water impoundment, the following information shall be provided:
 1. Certificate of the water as potable by the County Health Department, appropriate state agency or by an approved private laboratory.
 2. Whether the source will be distributed through a community water system or through individual delivery systems;
 3. Whether water rights exist to the supply and, if so, the names of persons holding such rights and amounts allotted to each;
 4. The location of the sources of water supply;
 5. The year-round or seasonal nature of the water supply;
 6. Proof of an adequate water supply for all anticipated needs of the proposed development.
- iv. Storage tanks can be used to serve individual lots or parcels if needed. The tank needs to be a minimum of 1200 gallons to serve one single family dwelling.

How will this application comply with the water requirements?

APPLICANTS REPLY:

We are requesting a waiver. We know that Parcel 1 has a good source of water, so we anticipate that a water supply for Parcel 2 will be readily available.

3. Sewage disposal systems, both public and private, shall conform to the requirements of state law.

Provide written evidence that an on-site septic system(s) that is intended to remain in use after final approval was authorized by an approving authority; or, if written evidence is not available, provide a septic system evaluation (prepared by a professional qualified under ORS 700) that certifies the existing system(s) to be properly functioning and meets the requirements in OAR 340-071-0000. In any case, it must be shown that the existing septic system(s) is either located entirely on the same lot containing an existing dwelling, or that proper easements are provided to allow the continued use and maintenance of the system(s).

How will this application comply with the water requirements? Please supply a site evaluation from DEQ with your application.

APPLICANTS REPLY:

Parcel 1 has a well operating septic system, and the NRCS soils survey shows that the Parcels 2 and 3 have similar soils so we can infer that those parcels will receive favorable evaluations.

4. Grading and erosion. Grading shall be performed and drainage facilities installed (i.e. French drains, catch basins, etc.) as is necessary to provide proper drainage within the partitioned area. The installation of storm sewers may be required where necessary to insure proper drainage, to conform to an established or proposed drainage system or to eliminate threat to the public health and safety. Erosion prevention. When necessary to prevent erosion all cuts and fills and other graded areas shall be protected from erosion by appropriate seeding or planting of grass shrubs, trees or other soil stabilizing vegetation. (OR 98-12-009PL)

The Roadmaster will review plans and findings. A grading and erosion plan for drainage shall be provided to address or an analysis that drainage is not required.

Have you provided a grading plan showing drainage facility? Explain in detailed how this application complies with the criteria or why the criteria does not apply.

APPLICANTS REPLY:

A grading plan has not yet been completed. This will occur once the property has been partitioned and a contractor is selected.

5. Streets or roads shall conform to the improvement standards stated in Chapter VII of this Ordinance. The county may deny, approve or approve with conditions a development proposal in order to minimize impacts to and protect transportation facilities. Any application that is expected to impact the state highway system must be provided to the Oregon Department of Transportation for their review and comment regarding conformance with state access management and mobility standards. Sidewalks of an all-weather material not less than five (5) feet in width, nor more than eight (8) feet in width shall be constructed as close to the center of pedestrian and bicycle ways as practical, when required.

What road system does the property access from? Does the property have sidewalks already or pedestrian ways?

APPLICANTS REPLY:

The property is accessed from Hathorn Road. There are no sidewalks on adjacent to the property.

6. Hazard Zones – If this property is within a hazard or development overlay other requirements may apply. If you have Tsunami hazards signage and pathways may be required. Have you consulted with Planning Staff to understand what hazards may be applicable?

APPLICANTS REPLY:

The following hazards apply to this site: very strong earthquake shaking and high landslide possibility.

STATEMENT OF INTENT

STATEMENT OF INTENT

The intention of this application is to partition the subject property into two parcels. The property is approximately 13.05 acres and generally hilly with multiple areas which appear to be suitable for development. There is currently a house, well and septic system on what is proposed to be Parcel 1. Parcel 2 has a road and cleared area that is intended to be built on. The property is accessed Hathorn Road. The DOGAMI Geologic Map of Oregon describes the soils as being a part of the Siletz Terrane which consists of submarine basalt, pillow basalt and deep marine sediment. These soils are generally known to be of a higher quality and are less prone to erosion and landslides. The property is moderately wooded young timber and heavy underbrush.

This partition and future development will comply with RR-5 requirements unless a variance is approved.

SECTION 4.2.100 RESIDENTIAL

Rural Residential (RR)

There are two RR zonings: Rural Residential-5 (RR-5) and Rural Residential-2 (RR-2). The intent of the Rural Residential Districts includes justified sites plus "committed" areas. The County's plan prescribes and allocates a finite number of rural dwelling/units/acreage. The zoning ordinance will specify permitted uses and minimum lot sizes.

The purpose of the "RR-2" and "RR-5" districts are to provide for small to medium acreage dwelling sites outside of Urban Growth Boundaries, where a moderate intensity of land development is appropriate, but where urban services and facilities may not be available or necessary.

The "RR-2" district provides for continued existence of rural family life and to provide a transition of densities between urban development and exclusive agricultural and forestry uses.

The "RR-5" district provides for the orderly development of rural land so as to encourage the continued existence of rural family life and to provide a transition of densities between urban development and exclusive agricultural or forestry uses.

SECTION 4.3.220 ADDITIONAL CONDITIONAL USE REVIEW STANDARDS

Rural Residential (RR)

- (a) Conditional Use Review Criteria - The following criteria only apply to conditional uses in the RR zoning districts:

i. **COMPATIBILITY:** The proposed USE, ACTIVITY OR DEVELOPMENT is required to demonstrate compatibility with the surrounding properties or compatibility may be made through the imposition of conditions. Compatibility means that the proposed use is capable of existing together with the surrounding uses without discord or disharmony. The test is where the proposed use is compatible with the existing surrounding uses and not potential or future uses in the surround area.

ii. All parks (Recreational or Residential) shall comply with the following design criteria:

a. The landscape shall minimize soil erosion. The exterior portion of the property shall provide an ornamental, sight-obscuring fence, wall, evergreen or other suitable screening/planting along all boundaries of the site abutting public roads or property lines that are common to other owners of property that are zoned for residential, except for points of ingress and egress;

b. **Lighting:** Any lights provided to illuminate any public or private parking area shall be so arranged as to reflect the light away from any abutting or adjacent residential district or use.

c. Exposed storage areas, service areas, utility buildings and structures and similar accessory areas and structures shall be subject to the setbacks of the this zoning designation, screen plantings or other screening methods;

d. Trash service shall be provided to the facility and the area for trash receptacle or receptacles shall be identified on the plot plan; and

e. Hours of operation may be required in areas predominantly surrounded by residential zones.

SECTION 4.3.225 GENERAL SITING STANDARDS

(1) **Agricultural and Forest Covenant** - Any applicant for a dwelling permit adjacent to a Forest or Exclusive Farm Zone shall sign a statement on the Compliance Determination or Zoning Clearance Letter acknowledging that: "the normal intensive management practices occurring on adjacent resource land will not conflict with the rural residential landowner's enjoyment of his or her property.

(2) **Fences, Hedges, and Walls:** No requirement, but vision clearance provisions of Section 7.1.525 apply.

(3) **Limitation on uses of manufactured dwellings/structures for commercial purposes** pursuant to ORS 466 et seq. Manufactured dwellings shall not be used for commercial purposes except:

(a) Where use of the manufactured dwelling for commercial purposes is authorized by the Building Codes Agency.

(b) Where used as a temporary sales office for manufactured structures; or

(c) As part of an approved home occupation. [OR-92-07-012PL]

(4) New lots or parcels - Creation of lots or parcels, unless it meets the circumstances of § 5.6.130, shall meet the street frontage, lot width, lot depth and lot size. Minimum road frontage/lot width shall be met unless waived by the Planning Director in consultation with the County Surveyor and County Roadmaster due to creating an unsafe or irregular configuration:

(a) Minimum Street frontage should be at least 30 feet; and

(b) Minimum lot width and Minimum lot depth is 50 feet.

Minimum parcel/lot size cannot be waived or varied unless otherwise provided by a specific zoning regulation. Tax lot creation and consolidations do not change the legally created status of a lot or parcel.

(5) Parking - Off-street access, parking and loading requirements per Chapter VII apply.

(6) Riparian -

(a) Riparian vegetation setback within 50 feet of a estuarine wetland, stream, lake or river, as identified on the Coastal Shoreland and Fish and Wildlife habitat inventory maps, shall be maintained except:

- i. Trees certified as posing an erosion or safety hazard. Property owner is responsible for ensuring compliance with all local, state and federal agencies for the removal of the tree.**
- ii. Riparian vegetation may be removed to provide direct access for a water-dependent use if it is a listed permitted within the zoning district;**
- iii. Riparian vegetation may be removed in order to allow establishment of authorized structural shoreline stabilization measures;**
- iv. Riparian vegetation may be removed to facilitate stream or stream bank clearance projects under a port district, ODFW, BLM, Soil & Water Conservation District, or USFS stream enhancement plan;**
- v. Riparian vegetation may be removed in order to site or properly maintain public utilities and road right-of-ways;**
- vi. Riparian vegetation may be removed in conjunction with existing agricultural operations (e.g., to site or maintain irrigation pumps, to limit encroaching brush, to allow harvesting farm crops customarily grown within riparian corridors, etc.)**

provided that such vegetation removal does not encroach further into the vegetation buffer except as needed to provide an access to the water to site or maintain irrigation pumps; or

vii. The 50 foot riparian vegetation setback shall not apply in any instance where an existing structure was lawfully established and an addition or alteration to said structure is to be sited not closer to the estuarine wetland, stream, lake, or river than the existing structure and said addition or alteration is not more than 100% of the size of the existing structure's "footprint".

(b) Riparian removal within the Coastal Shoreland Boundary requires an Administrative Conditional Use application and review. See Special Development Considerations Coastal Shoreland Boundary.

(c) The 50' measurement shall be taken from the closest point of the ordinary high water mark to the structure using a right angle from the ordinary high water mark.

(7) Setbacks:

(a) All Development with the exception of fences shall be set back a minimum of thirty-five (35) feet from any road right-of-way centerline, or five (5) feet from the right-of-way line, whichever is greater. This setback may be greater under specific zoning siting requirements.

(b) Firebreak Setback - New or replacement dwellings on lots, parcels or tracts abutting the "Forest" zone shall establish and maintain a firebreak, for a distance of at least 30 feet in all directions. Vegetation within this firebreak may include mowed grasses, low shrubs (less than ground floor window height), and trees that are spaced with more than 15 feet between the crowns and pruned to remove dead and low (less than 8 feet from the ground) branches. Accumulated needles, limbs and other dead vegetation should be removed from beneath trees.

(8) OUTDOOR STORAGE IN RESIDENTIAL ZONES (a) Boats and trailers, travel trailers, pick-up campers or coaches, motorized dwellings, and similar recreation equipment may be stored on a lot but not used as an accessory use; (b) Automotive vehicles or trailers of any kind or type without current license plates, where required, and which are not in mechanical working order, shall not be parked or stored on any residentially zoned property other than in completely enclosed buildings; (c) One operating truck may be stored on the lot of a truck driver provided it is accessory to the main use of the property. Additional trucks shall not be allowed.

SECTION 4.3.230 ADDITIONAL SITING STANDARDS

Rural Residential (RR)

(a) Minimum Lot/Parcel Size:

i. 5 acres in the RR-5 district

ii. 2 acres in the RR-2 district

iii. Exception to minimum lot sizes in Rural Residential:

1. Smaller parcels may be permitted in an approved residential planned unit development, provided the allowable density of the parent parcel is not exceeded.

2. Any lawfully created parcel or lot created prior to January 1, 1986 that is equal to or greater than one acre. Multiple parcels or lots may be combined to equal one acre but then a restriction shall be placed on the deed and parcels and/or lots shall be combined into one tax lot.

3. Any lawfully created parcel or lot created prior to January 1, 1986 that does not equal one acre and not served by a public sewer then Department of Environmental Quality, State Building Codes and Oregon Department of Water Resources should be consulted by the developer prior to seeking a land use authorization to construct a dwelling as there may be development limitations.

4. Creation of parcels less than the minimum lot size of the zoning district shall be permitted provided the following circumstances exist:

a) The subject property is not zoned for resource use;

b) An existing dwelling (lawfully established, but not for temporary purposes) was sited prior to January 1, 1986, and will remain sited on each proposed parcel; and

c) A land division is submitted and approved by Coos County pursuant to the current standards with the exception on the minimum parcels size.

(b) Setbacks – No additional setback requirements.

(c) Building Height – No additional Requirements.

(d) Density or Size limits -

i. Dwelling density shall be no more than one dwelling per lawfully created parcel unless otherwise provided for by this ordinance.

LIMITATIONS OF LIABILITY

"CUSTOMER" REFERS TO THE RECIPIENT OF THIS REPORT.

CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES THAT IT IS EXTREMELY DIFFICULT, IF NOT IMPOSSIBLE, TO DETERMINE THE EXTENT OF LOSS WHICH COULD ARISE FROM ERRORS OR OMISSIONS IN, OR THE COMPANY'S NEGLIGENCE IN PRODUCING, THE REQUESTED REPORT, HEREIN "THE REPORT." CUSTOMER RECOGNIZES THAT THE FEE CHARGED IS NOMINAL IN RELATION TO THE POTENTIAL LIABILITY WHICH COULD ARISE FROM SUCH ERRORS OR OMISSIONS OR NEGLIGENCE. THEREFORE, CUSTOMER UNDERSTANDS THAT THE COMPANY IS NOT WILLING TO PROCEED IN THE PREPARATION AND ISSUANCE OF THE REPORT UNLESS THE COMPANY'S LIABILITY IS STRICTLY LIMITED. CUSTOMER AGREES WITH THE PROPRIETY OF SUCH LIMITATION AND AGREES TO BE BOUND BY ITS TERMS

THE LIMITATIONS ARE AS FOLLOWS AND THE LIMITATIONS WILL SURVIVE THE CONTRACT:

ONLY MATTERS IDENTIFIED IN THIS REPORT AS THE SUBJECT OF THE REPORT ARE WITHIN ITS SCOPE. ALL OTHER MATTERS ARE OUTSIDE THE SCOPE OF THE REPORT.

CUSTOMER AGREES, AS PART OF THE CONSIDERATION FOR THE ISSUANCE OF THE REPORT AND TO THE FULLEST EXTENT PERMITTED BY LAW, TO LIMIT THE LIABILITY OF THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS FOR ANY AND ALL CLAIMS, LIABILITIES, CAUSES OF ACTION, LOSSES, COSTS, DAMAGES AND EXPENSES OF ANY NATURE WHATSOEVER, INCLUDING ATTORNEY'S FEES, HOWEVER ALLEGED OR ARISING, INCLUDING BUT NOT LIMITED TO THOSE ARISING FROM BREACH OF CONTRACT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF WARRANTY, EQUITY, THE COMMON LAW, STATUTE OR ANY OTHER THEORY OF RECOVERY, OR FROM ANY PERSON'S USE, MISUSE, OR INABILITY TO USE THE REPORT OR ANY OF THE MATERIALS CONTAINED THEREIN OR PRODUCED, SO THAT THE TOTAL AGGREGATE LIABILITY OF THE COMPANY AND ITS AGENTS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS SHALL NOT IN ANY EVENT EXCEED THE COMPANY'S TOTAL FEE FOR THE REPORT.

CUSTOMER AGREES THAT THE FOREGOING LIMITATION ON LIABILITY IS A TERM MATERIAL TO THE PRICE THE CUSTOMER IS PAYING, WHICH PRICE IS LOWER THAN WOULD OTHERWISE BE OFFERED TO THE CUSTOMER WITHOUT SAID TERM. CUSTOMER RECOGNIZES THAT THE COMPANY WOULD NOT ISSUE THE REPORT BUT FOR THIS CUSTOMER AGREEMENT, AS PART OF THE CONSIDERATION GIVEN FOR THE REPORT, TO THE FOREGOING LIMITATION OF LIABILITY AND THAT ANY SUCH LIABILITY IS CONDITIONED AND PREDICATED UPON THE FULL AND TIMELY PAYMENT OF THE COMPANY'S INVOICE FOR THE REPORT.

THE REPORT IS LIMITED IN SCOPE AND IS NOT AN ABSTRACT OF TITLE, TITLE OPINION, PRELIMINARY TITLE REPORT, TITLE REPORT, COMMITMENT TO ISSUE TITLE INSURANCE, OR A TITLE POLICY, AND SHOULD NOT BE RELIED UPON AS SUCH. THE REPORT DOES NOT PROVIDE OR OFFER ANY TITLE INSURANCE, LIABILITY COVERAGE OR ERRORS AND OMISSIONS COVERAGE. THE REPORT IS NOT TO BE RELIED UPON AS A REPRESENTATION OF THE STATUS OF TITLE TO THE PROPERTY. THE COMPANY MAKES NO REPRESENTATIONS AS TO THE REPORT'S ACCURACY, DISCLAIMS ANY WARRANTY AS TO THE REPORT, ASSUMES NO DUTIES TO CUSTOMER, DOES NOT INTEND FOR CUSTOMER TO RELY ON THE REPORT, AND ASSUMES NO LIABILITY FOR ANY LOSS OCCURRING BY REASON OF RELIANCE ON THE REPORT OR OTHERWISE.

IF CUSTOMER (A) HAS OR WILL HAVE AN INSURABLE INTEREST IN THE SUBJECT REAL PROPERTY, (B) DOES NOT WISH TO LIMIT LIABILITY AS STATED HEREIN AND (C) DESIRES THAT ADDITIONAL LIABILITY BE ASSUMED BY THE COMPANY, THEN CUSTOMER MAY REQUEST AND PURCHASE A POLICY OF TITLE INSURANCE, A BINDER, OR A COMMITMENT TO ISSUE A POLICY OF TITLE INSURANCE. NO ASSURANCE IS GIVEN AS TO THE INSURABILITY OF THE TITLE OR STATUS OF TITLE. CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES IT HAS AN INDEPENDENT DUTY TO ENSURE AND/OR RESEARCH THE ACCURACY OF ANY INFORMATION OBTAINED FROM THE COMPANY OR ANY PRODUCT OR SERVICE PURCHASED.

NO THIRD PARTY IS PERMITTED TO USE OR RELY UPON THE INFORMATION SET FORTH IN THE REPORT, AND NO LIABILITY TO ANY THIRD PARTY IS UNDERTAKEN BY THE COMPANY.

CUSTOMER AGREES THAT, TO THE FULLEST EXTENT PERMITTED BY LAW, IN NO EVENT WILL THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS, AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES AND SUBCONTRACTORS BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, PUNITIVE, EXEMPLARY, OR SPECIAL DAMAGES, OR LOSS OF PROFITS, REVENUE, INCOME, SAVINGS, DATA, BUSINESS, OPPORTUNITY, OR GOODWILL, PAIN AND SUFFERING, EMOTIONAL DISTRESS, NON-OPERATION OR INCREASED EXPENSE OF OPERATION, BUSINESS INTERRUPTION OR DELAY, COST OF CAPITAL, OR COST OF REPLACEMENT PRODUCTS OR SERVICES, REGARDLESS OF WHETHER SUCH LIABILITY IS BASED ON BREACH OF CONTRACT, TORT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTIES, FAILURE OF ESSENTIAL PURPOSE, OR OTHERWISE AND WHETHER CAUSED BY NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF CONTRACT, BREACH OF WARRANTY, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE OR ANY OTHER CAUSE WHATSOEVER, AND EVEN IF THE COMPANY HAS BEEN ADVISED OF THE LIKELIHOOD OF SUCH DAMAGES OR KNEW OR SHOULD HAVE KNOWN OF THE POSSIBILITY FOR SUCH DAMAGES.
